

## Friendship Knot

Used to fasten a scarf / neckerchief instead of a woggle. The shape of the knot represents the trefoil shaped Guide badge and is a sign of the friendship of Guiding.

Tie your knot on a **clean and ironed** neckerchief.

It works well if you roll your neckerchief before tying the knot.

1

Put neckerchief around neck. Fold bottom of left-hand side up.

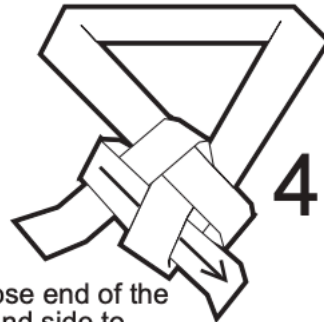

2

Put right-hand side over this and fold it underneath.

3

Fold the loose end of the left-hand side down as shown.

4

Use the loose end of the right-hand side to complete the knot.

The knot might need a bit of adjusting before you pull it tight to get a nice shape. To save time keep the knot tied and take off / put on your neckerchief by putting it over your head.
